shown in Coffeehouse

UC550-JPT
For people 5'2" or under
Shown in Tuscan

UC550-L
For people 5'11" - 6'2"
Shown in Almond

The StellarComfort Collection offers the most comfort of any lift recliner. Each model comes standard with the StellarComfort positioning technology, allowing the backrest and footrest to work independently to create positions that place the feet above the heart and reduce lower back pressure. Medium & Large sizes available with articulating headrest option.

Sleep

Zero Gravity

StellarComfort positioning technology allows for a greater range of positions at the touch of a button. These positions may help improve circulation, relieve back pressure and enhance comfort. Experience the difference of this unique motion technology available in multiple sizes.

User-friendly feature of every UltraComfort recline chair:

Easy to use battery backup system. Each UltraComfort recliner has a battery backup system in the electrical transformer which operates on two 9 volt batteries. In the event of a power failure, the battery system will raise the chair from the reclined to the seated position. The batteries should be replaced after one use.
